This Fellow Sings "Tener" With Us.

PENNSYLVANIA'S CLEAN SWEEP.

Tener Elected Governor by 25,000 to 40,000 Majority.

OH, WHAT A GOOSE, BERRY.

People Swipe the Liars and Slanders With a Mighty Swipe.

Tener's majority over Berry in Pennsylvania will be about 25,000. With five counties yet to hear from his majority is 34,874, and it is expected the missing counties will reduce this lead by from 6,000 to 10,000.

Dix in New York, Wilson in New Jersey, Harmon in Ohio, Foss in Massachusetts, Baldwin in Connecticut, all Democratic candidates for Governor, are apparently elected.

SCATTERING RETURNS.

Caleb Powers wins out for Congress in Kentucky, the Democrats conceding his election.

New York goes Democratic, electing John A. Dix Governor by about 55,000 plurality.

New Jersey is Democratic a d Woodrow Wilson is elected Governor by about 10,000 plurality.

Speaker Joseph G. Cannon is re-elected to Congress in Illinois by a slightly reduced plurality.

In the Crawford-Erie district A. L. Bates is re-elected to Congress by about 1,200. Frank B. Von Tucky and C. Victor Johnson, Republicans, are elected to the Assembly from Crawford county.

Speer Wins By 2,000.

At a late hour last night sufficient returns from this, the 28th, Congressional District had not been received to indicate the precise majority the Hon. Peter M. Speer will have over Mr. Breene, but enough were in to make it decisive, and it may reach 2,000 when the official count is footed up. These pluralities were reported at midnight:

Table showing electoral college results for Speer, Breene, and Dem. Elk.

Congress is Democratic.

The latest returns from congressional elections throughout the country indicate that the Democrats will have control of the next House by from 20 to 30 majority. The U. S. Senate will still remain in Republican control, but by a reduced majority, several states in which Senators are to be elected having returned a majority of Democrats in their legislatures on joint ballot.

Whatever the outcome may be, on land or sea, or in the air above—wherever it is possible to turn a wheel—the United States continues to be a consistent winner.

The balloonists who have broken the distance record have done only what men have done before them, and have made a new record for somebody else to break. Ballooning is a fine pastime, and it has its perils and adventures which spice it to a much finer lark than golf or tennis can give. Still, a whole lot of us will cling to the latter games yet awhile. At any rate, until the high-flyers quit spilling their cargoes of human freight so promiscuously.

KILLED, 3804; injured, 82,374. This is the casualty record of the railroads in the United States in the year ended June 30 last, according to the interstate commerce commission. It is an increase of 1013 in the number killed and 18,454 in the number injured over the previous years' figures. There were 5961 collisions, more than 16 a day, killing 433 persons and injuring 7765 and damaging railroad property \$4,629,279. In the year's 5910 derailments 340 persons were killed and 4818 injured. In the last three months of the year 20,650 were killed or injured.

DR. ELLWOOD C. PERISHO, an institute lecturer, is preaching a crusade against the fly. "Quite recently," he said, "two flies, caught from the inside of a screen door, were examined under a microscope and upon one foot of the first there was found to be fifteen thousand typhoid germs and on the feet of the other one hundred thousand germs. Think of the flies wallowing in all the filth and then making a straight line to your dining table, walking over your food and then for the sake of your children and for the sake of your home, be up and doing all you can to push forward the movement to eradicate the fly from this grand country of ours, just as the mosquito was exterminated from the swamps of Panama. And it can be done a thousand times easier."

Forest County Lands Right Side Up.

Little Forest again lights "right-side up, with care," thank you! In the midst of political insurrection our county comes out on top with a substantial majority for Governor Tener and the whole Republican ticket, with the exception of four brilliant and genial friend Peter Speer, who suffers most by the general cutting and slashing, but the very slight adversity is of no particular consequence, since Brother Breene was looked upon with kindly eyes by a number of personal friends who admired his dash and oratory.

Our new Governor, Hon. John Kinley Tener, carries the county nicely by something less than a hundred, notwithstanding the circulation of the Philadelphia North American's wholesale lying by an equally lying handful of guerrillas that still infest this neck 'o woods, and who manage to hang to the Republican party like nasty fungus to a peach tree.

"Billey" Campbell pulls through on the Republican Assembly ticket with a safe majority reaching about 75, and latest figures may make it more than that, which is sufficient and plenty in a year when topsy-turvy conditions are prevailing in every nook and corner of the State and nation.

All honor to Little Forest! Here's the vote so far as could be obtained at a late hour last night, with Gultonville in Green township, to hear from, which will not materially change the general result:

Capt. Gayetty Kills a Bear.

Captain J. M. Gayetty returned last evening from Blue Jay, Forest county, with the carcass of a young male bear that weighed 154 pounds dressed, which he killed Thursday. Captain Gayetty, E. The Derrick of Saturday gave account of the killing of a bear by Oil City's well known big game sport: M., George B. and Washington Kiser, of Clarion county, establishing a camp on Blue Jay' about 12 miles from Marienville and Captain Gayetty was scouting through the woods two miles from camp when he discovered bruin digging ants around the roots of an old tree; at about the same moment the bear realized that the hunter was in its neighborhood. It climbed on a log to take a better look of its surroundings, making a splendid mark for the Oil City hunter, who planted a 32 calibre bullet from a Winchester rifle back of its left ear, killing it instantly. He hung up the carcass and removing the liver and heart started with them for camp. When he came within hearing distance he let out a whoop of exultation and triumph that brought the Kiser brothers from the shanty and they joined in a war dance around the returning hunter. The captain then walked 10 miles to send a telegram to Oil City papers announcing his good luck.

The carcass will be on exhibition at Gault's meat market a few days. The pelt is one of the finest ever brought to the city and the bear is young and "rolling fat."

The hunter says there are plenty of bears in that section of the country and that he intends to return to camp on Tuesday morning, just as soon as he can leave town after casting his vote. He has been visiting the same woods annually for many years and it is a poor season that he does not bring home a deer or bear, with an occasional bobcat. He reports that the deer seem to have deserted that section. During the two weeks or more he has been hunting he saw no deer signs. He saw only an occasional ruffed grouse in woods where they were plentiful in past seasons.

Muzette.

A. G. Whitehill, of Siverly, who has been ill for some time past, has so far recovered that he is able to visit friends in this community.

Muzette is one of the most desirable places situated along the public highway leading from Nebraska to Marienville. It bears its name from one of the daughters of the family now residing there. It is snugly encoached at the headwaters of a small stream known as Ellsworth run, whose banks a few years ago were lined with timber, which at that time was a picture fair to behold, but of late years it has been converted into farm lands, and a few stumps standing abroad is a mark showing what work the boys had once done. The trade center of the town is the best in this section, as it is not cut off by small towns. The nearest competition is Marienville, a small town six miles east. Its roads, under Pathmaster Wm. Shoup, are kept up to the standard of perfection, he being the right man in the right place. And what makes it of so much importance from an educational standpoint is the school under the management of Miss Dorothy Shunk, the present teacher, who is doing quite an academy work this fall. Likewise, when it comes to the arrangements and qualifications of its respected landlord and lady of the place, the traveler can always count on square meals. There is no livery in connection with said place, but the traveler and his best friend will always find bin and mow with plenty to satisfy the inward desire, and as the writer has frequently seen plenty within both storehouse and barn, his memory is crowded back to the time and place where He played hide and go seek In corner and nook, Wherever a child could be stowed; Where we made us coaches Of straw and rye, And on them to Boston we rode. Pensioners Rapidly Passing Away.

That the ranks of the veterans of the Civil war are fast thinning out and that it is but a matter of a few years when they all will have answered their last roll call, is shown by the annual report of the commissioner of pensions, J. L. Davenport. During the fiscal year ended June 30, 1910, 35,312 pensioned survivors of the rebellion died. There were added to the pension rolls the names of 3,967 making a net reduction for the year of 31,345. This leaves remaining upon the pension rolls 562,615 Civil war soldiers and it is evident, that within the next few years the great majority of them will have passed away. These veterans however, make up but little more than half the entire list of pensioners of this government, for there are altogether 921,083 names on the list of the other being widows, minor children and other relatives of soldiers of the wars from the Revolution to the Spanish war. So that even with the passing of the survivors of the Civil war, there will remain a very considerable pension list, though small in comparison with that which has been sustained for twenty-five years and more.

The liberality of the United States in its treatment of the men who fought its battles is shown by a statement giving the total of all pensions paid from the foundation of the government to the close of the last fiscal year. That total amounts to \$4,073,956,599 81.

How They Get 'Em.

The sad looking man climbed into the bootblack's chair to have his shoes shined.

"And is your father a bootblack, too?" he asked, by way of making conversation.

"No, sir," replied the lad. "My father is a farmer."

"Ah, a farmer?" cried the sad looking man as a spasm almost akin to joy spread over his features. As he reached into his pocket for a notebook and pencil he began to mumble a sort of gibberish. It sounded like this:

"Farmer, hey? Farmer-hay. Son, bootblack. Son shines. Ah! I have it. Your father evidently believes in making hay while the sun shines."

"Perhaps it is needless to explain that instead of being a mild lunatic the sad looking man was one of those professional humorists who write funny pieces for the papers.—Philadelphia Ledger.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
